PRESIDENT'S MESSAGE

Hello, everyone. It is hard to believe that I have served on the Board for almost two years – my, how time flies – and that this will be my last newsletter piece.

Now that my term is coming to an end, I have decided to step down and give some other folks a chance to get involved. I still hope to remain active on the Architectural Committee and I am planning to continue to volunteer at some of our activities, so I will not be totally out of the loop.

Although proxies have been sent out, it is not too late to serve on the board. Just let our association manager Mickie know of your interest and the Board can appoint you even after the election is over. We are still looking for two more Board members, so if you would like to be a part of the decisions that help shape our community, just let Mickie know. Furthermore, the Architectural Committee still meets on the last Thursday of the month in the annex building, and any resident who would like to do so is welcome to attend.

Still a few projects going on around Summerlakes – we are still doing some mowing and also trimming some trees on common property. Our staff has also been busy going through our equipment and getting both the new and old storage buildings organized. We're also starting to think about indoor projects that can be completed during the winter months when mowing is not necessary.

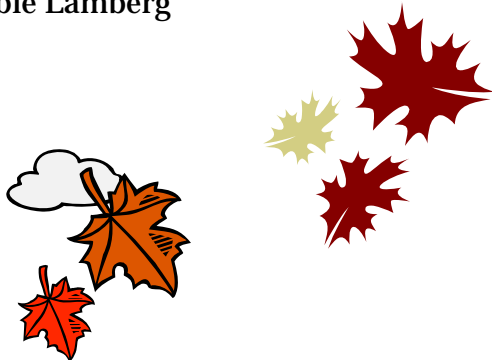

We had a good turnout at the Halloween party last month – so many cute and creative costumes! It was truly difficult to choose winners. The weather was very cooperative as well – we were able to have our hayride running, and it got chilly enough later in the evening so that the fire was enjoyable and cozy as well.

The holidays are approaching and we will be having another decorating contest this year! See details further into this newsletter.

I want to thank the other Board members and committee members who have served during my time as Board President – I feel we have accomplished quite a lot! Also, I have truly enjoyed this monthly opportunity to share what's happening with all of you, our residents. Thank you for reading.

Have a wonderful Thanksgiving and a safe, happy holiday season.

~ Debbie Lamberg

Families and Friends!

ANNUAL BOARD & ELECTION MEETING

Our Annual Homeowners Association Meeting and Election for the Board of Directors will be held on Thursday, November 13th at 7:30 p.m. following the regular monthly Board of Directors meeting. This year we will be filling four (4) open positions for the SHA Board of Directors. The following homeowners have chosen to run for a positions: **Jeanne Tassotto and Deana Pugh**. If you are unable to attend and vote in person, please return your signed proxy to the Clubhouse *before* November 13th. Voting materials were sent out mid-October. If you did not receive them we have extra copies available at the Clubhouse office.

HOLIDAY OUTDOOR LIGHTING CONTEST

Summerlakes is once again sponsoring a Holiday Light Decorating Contest for the “Best Decorated Homes”, and all Summerlakes residents are invited to participate. The three (3) best lit houses in the area will be chosen (no specific categories). There will be three (3) \$100.00 winners. To participate, call and register with the Clubhouse Office (630-393-3033) before December 13th. Judging will take place on Sunday, December 14th. Winners will be notified on Monday, December 15th. Everyone is encouraged to join in the fun! Call us and cast a vote for your favorite!

REMINDER ABOUT RECYCLING CONTAINERS

The City of Warrenville is working with Waste Management to improve service and assist in keeping neighborhoods clean. For Waste Management to service recycling properly, it needs to be contained in plastic recycling bins or containers 18 gallons in size or less, or cans that are 34 gallons in size or less labeled “recycle”. “Recycle” labels are available at City Hall for free. Recycling must weigh less than 50 pounds or be in recycling carts with wheels (toters). Recycling carts of 64 gallons can be rented from Waste Management for \$3.00 per month; simply call (800) 796-9696. Cardboard boxes or paper bags are not acceptable recycling containers. Weather and rodents can break down cardboard/paper and spread debris along the street. Anyone using receptacles that do not meet the requirements will not be serviced.

All recycling material must be clean; it cannot be contaminated with food items, trash or yard waste. Contaminated items will not be picked up. Items that can be recycled are clean bottles, jars, cans, plastics numbered 1 through 5, paper, and cardboard. Cardboard boxes must be flattened and cut down to no larger than 3' x 3'.

“Get Smart about Energy Use with Elevate Energy”

During an energy assessment, a Building Performance Institute-certified professional will use tools like a blower door test and infrared imaging (shown left) to figure out exactly where your home is losing energy and how you can fix these costly issues.

We all want our homes to be comfortable and affordable. However, most homes waste too much energy, resulting in discomfort, high bills, and unnecessary greenhouse gas emissions. Right now through the Energy Impact Illinois program, residents can find out where their homes are losing energy and what they can do to fix these issues. Schedule a \$99 home energy assessment, or host an energy demonstration for five friends and get a Building Performance Institute-quality assessment for free. Our qualified contractors will find the most cost-effective approaches, and Elevate Energy will ensure the work gets done right and help you get all available rebates for the work you do. Join the 4000+ homeowners who have made improvements and are reducing their energy bills by 15% or more.

To learn more about your options for energy efficiency and home energy savings, contact your local Elevate Energy advisor Liz Lyon at 773-299-7651 or elizabeth.lyon@elevateenergy.org. Elevate Energy is a Chicago-based nonprofit organization that designs and implements energy efficiency programs that lower costs, protect the environment, and ensure that the benefits of energy efficiency reach those who need them most. For more information, you can visit our website at elevateenergy.org”
